

## **Long Island City, NY // Bridgewater, NJ - Vice President**

---

Experience MetLife

### **MetLife...where work meets life.**

Work shouldn't be something you do just to make ends meet. It should provide satisfaction...and an opportunity to make a difference...

### **What we do.**

More than life insurance. Much more. Today, we are a major force in financial services: Investments, Financial Advice, Banking and Insurance. Through our products and services, our ultimate goal is simple in concept – to build financial freedom for everyone.

### **Long Island City, NY location preferred**

#### Vice President

- As part of the enterprise's risk management and control function, ensure all actuarial related business risks are anticipated, recognized, and appropriately managed before they can adversely affect the company.
- Utilize a risk-based approach to review business processes and financial practices enterprise-wide to ensure the use of compliant and best practices, procedural efficiency, and accuracy.
- Manage and prepare reports of audit findings for business managers, and proposes recommendations for changes as needed.
- Manage and prepares reports for senior management on larger-scale audit assignments.
- Participate consultatively in implementing changes to the extent possible.
- In addition to valuation and pricing, audit reviews are conducted in specialized areas, such as exotic reinsurance structures, ALM, and VA Hedging.

#### *Summary of Responsibilities:*

Responsible for assessing the control structure of the actuarial processes across the MetLife enterprise and partnering with actuarial management to bring about value added changes to the actuarial process.

#### *Principal Responsibilities:*

- Recognized as a strong candidate to participate on business partnering assignments due to strong technical skills, management abilities and knowledge of the Company.
- Partner with business Auditor-in-Charge in planning and executing audits.
- Develop and compile risk analysis and audit programs for complex audits.
- Coordinate and compile business process and key control information for complex/multiple audits.
- Provide actuarial support to various auditing units including Investments and International.
- Perform and or review complex actuarial calculations.
- Assess the control structure of the actuarial processes.
- Communicate business aspects of the actuarial issues to management.
- Prepare audit presentations addressing audit evaluations and issues.
- Develop audit work papers and audit reports using department recognized formats.
- Partner with Audit Management to identify areas where an actuarial perspective might be beneficial and make recommendations where appropriate.

- Make recommendations to Actuarial Management to bring about value added changes to the actuarial process.

### **Job Requirements**

- FSA with minimum of 18-20 yrs of actuarial related experience
- Broad working knowledge of core actuarial areas including: valuation, pricing, reinsurance structures, financial reporting and ALM
- Excellent communication skills, verbal, written and presentation
- Ability to communicate technical concepts to non technical audience
- Sound business judgment
- Solid project management skills
- Possess leadership qualities

*Officer promotions are subject to board approval which occurs during the 2nd and 4th quarter.*

### **We provide our employees with a variety of impressive benefits, including:**

- Medical, dental, life and mental health coverage, disability
- 401(k)
- Long-term care
- Adoption assistance program
- Domestic partner benefits
- Lactation centers
- Tuition refund program
- Fitness programs
- Flexible work arrangement
- And much more...
