

Long Island City, NY - Director - Actuarial Audit

Experience MetLife

MetLife...where work meets life.

Work shouldn't be something you do just to make ends meet. It should provide satisfaction...and an opportunity to make a difference...

What we do.

More than life insurance. Much more. Today, we are a major force in financial services: Investments, Financial Advice, Banking and Insurance. Through our products and services, our ultimate goal is simple in concept – to build financial freedom for everyone.

The Director of Actuarial Audit is responsible for assessing the control structure of the actuarial processes across the MetLife enterprise and partnering with actuarial management to bring about value added changes to the actuarial process.

Principal Responsibilities:

- Recognized as a strong candidate to participate on business partnering assignments due to strong technical skills, management abilities and knowledge of the Company.
- Partner with business Auditor-in-Charge in planning and executing audits.
- Coordinate and compile risk analysis and audit programs for complex audits in accordance with audit standards.
- Coordinate and compile business process and key control information for complex/multiple audits.
- Provide actuarial support to various auditing units.
- Perform complex actuarial calculations.
- Analyze and assess financial statements for accuracy and completeness.
- Assess the control structure of the actuarial processes.
- Communicate business aspects of the actuarial issues to management.
- Prepare audit presentations addressing audit evaluations and issues.
- Develop audit work papers and audit reports using department recognized formats.
- Partner with Audit Management to identify areas where an actuarial perspective might be beneficial and make recommendations where appropriate.
- Make recommendations to Actuarial Management to bring about value added changes to the actuarial process.
