

COMPANY NAME:

Prudential

JOB TITLE:

Actuarial Practice Reviewer

DESCRIPTION/RESPONSIBILITIES:

Position Summary

Retirement Plan Strategies (RPS) - a large and rapidly growing business within Prudential Retirement that focuses on delivering actuarial, investment and regulatory consulting solutions to retirement plan sponsors - is looking for an analyst to assume a reviewer position within the organization dedicated to improving the quality and timing results for a technical support organization that will help transform RPS into a market leading organization and an employer of choice for skilled technical analysts. This position will be dedicated to a specific client delivery practice (Jumbo, Core / Large or Small) within RPS.

Primary Responsibilities

- * Review actuarial valuations and select projects performed by analysts for assigned clients in accordance with guidelines established for RPS

- * Deliver signature-ready funding and accounting valuations to actuaries, including detailed demographic summary, gain/loss analysis and reconciliation to prior year's results

- * Provide technical support on select valuation and consulting projects for assigned clients

- * Assist consulting staff with the delivery of valuation and select consulting projects to clients

- * Work directly with consulting staff on assigned clients to scope project deliverables and own the timely and accurate delivery of those projects to the consultant

- * Advise Analyst Team Leader on ongoing and emerging project resource needs and timing; work with the ATL to secure optimal analyst resources to deliver valuation and consulting projects to the consultant

- * Partner with assigned project analysts to complete assigned projects, including the delegation of project responsibilities to project resources, the establishment of individual project plans for each valuation and consulting assignment and performance of assigned work

- * Ensure accurate and sufficient documentation of actuarial valuations and other special projects

- * Mentor and develop analyst staff through appropriate assignment of work responsibilities, providing frequent performance feedback and technical training

- * If CADP student, maintain progress through program requirements to obtain SoA and JBEA credentials

- * Execute on RPS' management team initiatives to develop RPS into a market leading organization

REQUIRED SKILLS:

Qualifications:

- * College graduate with evidence of strong analytical skills.

- * 8+ years of Defined Benefit Pension valuation experience.

- * Strong oral and written communication skills.

- * Understanding of the Defined Benefit product and a working knowledge of the Defined Contribution product. Strong PC skills.

* At least 5 years of experience in preparing Defined Benefit, ASC 715 valuations.

* Demonstrated proficiency in forecasts, asset liability modeling and investment policy development.

* Preferred candidate will have passed at least 4 actuarial exams.
