

COMPANY NAME:

Prudential

JOB TITLE:

Annuities Technical Product Manager, Product Management

DESCRIPTION/RESPONSIBILITIES:

The Annuities Technical Product Manager is responsible for the successful implementation of all inforce annuity product initiatives and ongoing management of current annuity product portfolio. It is expected that this person will be recognized within the organization as a product expert.

This position offers the ability to use a combination of technical, analytical, and business skills. This dynamic role provides exposure to many avenues of Prudential Annuities, as this position will provide an integral understanding of the product life cycle. This role requires excellent communication skills, as this individual will interact with many business partners in Pricing, Distribution, Client Services, Risk Management, Compliance and Law.

Duties and Responsibilities:

- \* Lead and/or support cross-functional representatives to proactively document and recommend product changes needed as a result of competitive pressures, shifts in market strategies, channel needs, regulatory needs or consumer needs.

- \* Develop business requirements for new products, features, and revisions to existing products.

- \* Assist in the development of the marketing and training including product specific training and product messaging.

- \* Influence business outcomes through strong communication and leadership skills

- \* Provide on-going detailed knowledge and problem resolution to the sales channels and business partners.

- \* Create efficiencies and mitigate risks through the development of Product Management policies and procedures.

- \* Utilize Excel and Access to better manage and analyze data related to the inforce business.

REQUIRED SKILLS:

- \*
  - + 3-6 years relevant experience
  - + Proven success in implementing product development projects that deliver results to meet business goals.
  - + Knowledge of financial services products and industry.
  - + Actuarial experience and/or exams a plus
  - + Excellent technical financial services product knowledge.
  - + Excellent ability to demonstrate & communicate technical aspects of product initiatives.
  - + Ability to collaborate effectively with multiple levels within the internal organization.
  - + Strength of convictions and ability to influence and champion product changes
  - + Ability to effectively manage several dissimilar projects and prioritize.

- + Intellectual capacity and curiosity.
- + Ability to work independently and as part of a team.
- + Positive energy
