

COMPANY NAME:

Prudential

JOB TITLE:

Sr Associate, Actuarial

DESCRIPTION/RESPONSIBILITIES:

Prudential International Insurance (PII) currently has ten operations in nine countries worldwide. PII Actuarial is the Newark-based department responsible for providing support, training and leadership to actuarial departments in the local operations, as well as partnering with Prudential's corporate groups.

PII is looking to fill a position in the Actuarial area of PII in Newark. This position's primary responsibility will be to support the actuarial functions associated with the block of business reinsured into Prudential's U.S.- based entities. The position will assist in the quarterly actuarial statutory/tax forecasting, valuation and asset adequacy testing process. In addition to these responsibilities, the position will also participate in the annual GAAP actuarial assumptions review.

Responsibilities include:

- . Supporting the quarterly actuarial statutory/tax forecasting and valuation process
- . Performing Asset Adequacy Testing for different types of products
- . Participating in the annual GAAP actuarial assumptions review
- . Supporting the annual experience studies process
- . Maintaining and enhancing actuarial models for valuation and projection capabilities

The candidate will be trained in:

- . Statutory and GAAP reserve methodology
- . Actuarial projection concepts
- . Actuarial modeling software

The candidate will be encouraged to pursue one or more of the following:

- . Actuarial professional exams
- . LOMA professional exams

REQUIRED SKILLS:

- . At least one year of experience in insurance or financial services.
- . Experience in an actuarial area is a plus.
- . Strong quantitative and analytical skill set.
- . Strong technical and computer skills.
- . Excellent oral and written communication skills.
- . Willingness to be a team player

Education

- . Strong background in mathematics
- . 1-2 Actuarial Exams is a plus

Computer Skills

- . Comfortable with Microsoft Windows environment
- . Strong Microsoft Excel/Word/Access
- . Experience with actuarial modeling software is a plus
- . Programming in Visual Basic is a plus

. 1-2 Actuarial Exams is a plus
