As a result, a leadership stance in reporting and assistance in further developing the team members and responsibilities added to the reporting function will be expected of this position.

The position will be responsible for the development, delivery and presentation of the Prudential Group Insurance reporting materials and strategy. The position is for an individual with a background in health plan and disability plan analytics and/or data analysis as well as a comfort level interacting with large national account customers to provide custom recommendations based on data analysis. The position will be responsible for ensuring Prudential delivers reports and analytics that support the needs of Group Insurance clients across Life, Dental, Absence and Disability with an eye on market and broker/consultant needs.

The primary responsibilities include:

- * Development and delivery of GI reports to clients and prospects
- * Support Development of the Integrated Health and Disability Reporting and Analytics strategy
- * Interface with multi-disciplinary functions within Prudential and externally with clients, brokers, industry leaders. Interfacing with data integration team to ensure service standards are met
- * Manage current and future reporting strategy to ensure competitive positioning in the marketplace
- * Prioritize GI reporting projects through interface with internal systems partners

REQUIRED SKILLS:

- * Health & Welfare Benefits Consulting
- * 7-10 years client reporting and/or analytics experience.
- * Experience in use of reporting software and analysis tools such as data mining tools, EXCEL, and ACCESS.
- * Group insurance product experience strongly desired.
- * Some travel throughout US may be required from time to time based on customer needs.
- * Ability to work through, lead and manage others.
- * A self-motivated individual with the desire to participate in and lead aspects of the profitable growth strategy of Group Insurance is sought.
